Forward Looking Statements

This press release contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. All statements other than statements of historical fact, including statements regarding our future results of operations and financial position, our business outlook, our business strategy and plans, our objectives for future operations, and any statements of a general economic or industry specific nature, are forward-looking statements. You can identify forward-looking statements by the fact that they do not relate strictly to historical or current facts. Words such as "anticipate," "estimate," "expect," "project," "plan," "intend," "believe," "may," "will," "should," "can have," "likely," "outlook," "potential," "targets," "contemplates," or the negative or plural of these words and similar expressions are intended to identify forward-looking statements.

These forward-looking statements are subject to a number of risks, uncertainties and assumptions, including those described in our Annual Report on Form 10-K for the fiscal year ended June 30, 2021, as well as in our other filings with the Securities and Exchange Commission. We believe that these risks include, but are not limited to: our ability to manage our growth effectively; the expansion and retention of our direct sales force with qualified and productive persons and the related effects on the growth of our business; the impact on customer expansion and retention if implementation, user experience, customer service, or performance relating to our solutions is not satisfactory; our ability to innovate and deliver high-quality, technologically advanced products and services; our relationships with third parties; the proper operation of our software; future acquisitions of other companies' businesses, technologies, or customer portfolios; the impact of COVID-19 on our business; and those risks described in our Annual Report on Form 10-K for the year ended June 30, 2021, as well as in our other filings with the Securities and Exchange Commission. You should not rely upon forward-looking statements as predictions of future events. The events and circumstances reflected in the forward-looking statements may not be achieved or occur. Although we believe that the expectations and assumptions reflected in the forward-looking statement are reasonable, we cannot guarantee future results, levels of activity, performance, or achievements. We undertake no obligation to publicly update any forward-looking statement after the date of this report, whether as a result of new information, future developments or otherwise, or to conform these statements to actual results or revised expectations, except as may be required by law.

Non-GAAP Financial Measures

To supplement our financial information presented in accordance with generally accepted accounting principles in the United States ("GAAP"), we present the following non-GAAP financial measures in this press release and on the related teleconference call: adjusted gross profit, adjusted gross profit margin, adjusted operating income, adjusted operating income margin, adjusted sales and marketing expense, adjusted general and administrative expense, adjusted research and development expense, adjusted net income attributable to Paycor HCM, Inc. and adjusted net income attributable to Paycor HCM, Inc. per share. Management believes these non-GAAP measures are useful in evaluating our core operating performance and trends to prepare and approve our annual budget, and to develop short-term and long-term operating plans. Management believes that non-GAAP financial information, when taken collectively, may be helpful to investors because it provides consistency and comparability with past financial performance and assists in comparisons with other companies, some of which use similar non-GAAP financial information to supplement their GAAP results. We define (i) adjusted gross profit as gross profit before amortization of intangible assets, stock-based compensation expenses, and certain corporate expenses, in each case that are included in costs of recurring revenues, (ii) adjusted gross profit margin as adjusted gross profit divided by total revenues, (iii) adjusted operating income as loss from operations before amortization of acquired intangible assets, stock-based award and liability incentive award compensation expenses, and other certain corporate expenses, such as costs related to acquisitions, (iv) adjusted operating income margin as adjusted operating income divided by total revenues, (v) adjusted sales and marketing expense as sales and marketing expenses before stock-based award and liability incentive award compensation expenses and other certain corporate expenses, (vi) adjusted general and administrative expense as general and administrative expenses before amortization of acquired intangible assets, stock-based award and liability incentive award compensation expenses, and other certain corporate expenses, (vii) adjusted research and development expense as research and development expenses before stock-based award and liability incentive award compensation expenses and other certain corporate expenses, (viii) adjusted net income attributable to Paycor HCM, Inc. as loss before benefit for income taxes after adjusting for amortization of acquired intangible assets, stock-based award and liability incentive award compensation expenses, gain or loss on the extinguishment of debt, and other certain corporate expenses, such as costs related to acquisitions, all of which are tax effected applying an adjusted tax rate and (ix) adjusted net income attributable to Paycor HCM, Inc. per share as adjusted net income attributable to Paycor HCM, Inc. divided by adjusted shares outstanding. Adjusted shares outstanding includes potentially dilutive securities excluded from the GAAP dilutive net loss per share calculation.

The non-GAAP financial measures presented in this press release and discussed on the related teleconference call are not measures of financial performance under GAAP and should not be considered a substitute for gross profit, gross margin, operating income, operating income margin, sales and marketing expense, general and administrative expense, research and development expense, net income attributable to Paycor HCM, Inc. and diluted net income attributable to Paycor HCM, Inc. per share. Non-GAAP financial measures have limitations as analytical tools, and when assessing our operating performance, you should not consider them in isolation, or as a substitute for analysis of our results as reported under GAAP. The non-GAAP financial measures that we present may not be comparable to similarly titled measures used by other companies. A reconciliation is provided below under "Reconciliations of Non-GAAP Measures to GAAP Measures," for each non-GAAP financial measure to the most directly comparable financial measure stated in accordance with GAAP.

- *** The adjusted shares outstanding for the three months ended September 30, 2021 assume the conversion of the Series A Preferred Stock as if it would have occurred on July 1, 2021 based on the if-converted method and include potentially dilutive securities that are excluded from the GAAP dilutive net income per share calculation because including them would have an antidilutive effect. There were no potentially dilutive securities for the three months ended September 30, 2020 and therefore the adjusted shares outstanding are the same as the GAAP diluted shares outstanding.
